Subject: Cumulative Impact Policy in respect of the specified area of Stourbridge Town Centre

Brian,
I have carried out an analysis of noise complaints regarding licenced premises within the designated area received by Environmental Health over the previous two years. They are as follows.

The last 12 months 17/18 = 7
The previous 12 months 16/17 = 14

As you can see we have not received many but we have seen a 50% reduction in noise complaints over the last 12 months compared with the previous 12 months and therefore we would support the retention of the Cumulative Impact Policy in respect of the specified area of Stourbridge Town Centre.

Regards,
Nick Powell
Head of Environmental Health and Trading Standards
